

"Nurse Question", "Patient Response"

"What brings you to the ER today?", "I've been having stomach and abdominal pain for the last few hours."

"Can you describe the timing of your pain?", "It started around 5 PM and has been getting worse."

"How would you describe the quality of the pain?", "It's a sharp pain, mostly in my lower abdomen."

"On a scale of 1 to 10, how severe is the pain?", "It's about a 7 right now."

"Does anything trigger the pain or make it worse?", "It gets worse when I move or try to eat."

"Have you found anything that helps alleviate the pain?", "Lying still seems to help a little."

"Are you experiencing any other symptoms?", "Yes, I have a fever and I've been coughing a bit."

"How high is your fever?", "I think it's around 101°F."

"Have you had any vomiting?", "Yes, I vomited twice earlier today."

"Do you have any past medical history we should know about?", "I have a history of gastritis."

"Are you currently taking any medications?", "Just some over-the-counter antacids."

"Do you have any allergies?", "I'm allergic to penicillin."

"Is there any relevant family history?", "My mom has a history of stomach ulcers."

"Can you tell me about your social history?", "I work as a teacher and I don't smoke or drink."

"Have you experienced any back or leg symptoms?", "No, just the abdominal pain."

"Have you had any recent travel or exposure to sick individuals?", "I traveled last week but I haven't been around anyone sick."

"Have you noticed any changes in your bowel habits?", "Yes, I've been more constipated than usual."
